## 1 : Safety Information

---

Thank you for purchasing this state of the art TV and DVD. Please carefully read this manual before installing and using the tv. Keep this manual handy for future reference. If the tv is damaged in transit do not attempt to use it, but contact the supplier immediately.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of un-insulated “dangerous voltage” within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to the persons.

The exclamation point within an equilateral triangle is intend to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Correct disposal of this Product(Waste Electrical & Electronic Equipment ( WEEE)  
The crossed out “Whee bin” is intended to show that this appliance must not be placed with ordinary household waste at the end of its useful life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please keep separate from other household waste and recycle it responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where you purchased the product, or their local government office for details of where and how you can take this item for environmentally safe re-cycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product must not be mixed with other commercial wastes for disposal.

This unit is a “CLASS 1” laser product. This product uses a visible laser beam which could cause hazardous radiation exposure. Ensure the recorder is operated as instructed. Do not remove any covers or look into the DVD drawer opening whilst power is applied. Do NOT modify or adjust any controls that may affect laser emissions. Should the appliance become faulty consult a qualified technician.

This appliance complies with European Safety and Electrical directives

## 2: Safety Precautions

---

**Unpacking and Handling.** Open the carton carefully and remove the top polyfoam packing. Carefully lift the Tv (2 persons) and place onto a firm stable surface. Lift off the Poly bag and retain all packaging for future use. Keep all packaging away from small children and animals.

**Placing Tv.** The tv should be placed on a firm table or shelf. Do not place in a cabinet unless there is sufficient spacing for air flow and access for the DVD player opening.

**Connections.** When connecting the tv to external sources and the mains supply, do not place wires that can be tripped over. Do not place heavy objects, bend or trap the mains lead.

**Top of Tv.** Do not place objects such as vases, candles or other objects which may spill into the Tv.

**Ventilation and Heat Sources.** Do not place material over the ventilation slots, this will cause the tv to overheat and fail. Do not place the Tv in direct sunlight or near heat sources such as radiators or fires.

**Moisture.** Do not place the Tv in wet or damp conditions, such as steamy kitchens, basements or other damp places. Do not allow water or other fluids to enter the Tv. Do not touch the Mains plug with wet hands. Should moisture enter the Tv , disconnect from the supply and call the customer help line.

**Cleaning.** Disconnect the Tv from the mains supply. Use a soft dry cloth, for stubborn stains use a soft moist cloth with a dilute mild detergent. Do NOT use petrol based fluids

**Leaving your Tv.** Do not leave your tv operating whilst un attended. It is wise to switch off at the Power switch. To conserve power do not leave the tv in standby for long periods “overnight”. When leaving the tv for long periods “holidays” and when local thunderstorms occur, disconnect the aerial “if external” and mains supply.

Extreme humidity

Clean the disc surface with a soft, dry cleaning cloth, Wipe the disc surface gently and radially from center toward the outer edge.

Do not apply thinner, alcohol, chemical solvent, or sprays when cleaning. Such cleaning fluids will permanently damage the disc surface.

## 11 : Wall Mounting.

---

The TV is provided with four mounting holes (6mm isometric threads) for a wall mounting bracket. (not supplied).

To remove the TV base, unscrew the 4 screws in Fig 1 and slide the base away from the Tv. Mount the bracket using the manufacturers instructions. Do NOT use mounting screws longer than 16mm.

Fit the wall bracket securely following the manufacturers instructions.

Akura or it agents accept no responsibility for damage caused by faulty bracket installation.

## 12 : Useful Information.

### Power Consumption Reduction.

To enable the user to reduce the “carbon footprint” of the Tv, it is suggested that the Tv is turned off completely at the mains supply, rather than be left in standby when not in use. This not only reduces the carbon footprint, it increases the safety of the product and it also reduces the annual electricity bill by a significant amount.

### HDMI SETUP

If you are using HDMI for the first time, from a DVD player or similar item, you may need to set the “source” output. To do this connect a “scart” lead and the HDMI lead from the item to the TV, Select SCART1 (if Scart 1 is used). Enter the setup menu of the external item (see manufacturers guide) and select the HDMI output. Select HDMI input on the TV and you should see a picture from the external item. When your setup is complete, remove the scart lead.

### Display.

The display contains over 1 million pixels. Do NOT hit or physically damage the screen surface. It is normal, within the lifetime of the screen to see bright or dark pixels. This is not a fault and is not covered by warranty.

### Service Port.

This connector is intended for service personnel only. Do NOT place any USB item into this port. You may upset the internal firmware. Unauthorised programming will invalidate your warranty.
