Installing the Batteries

Remove the battery cover from the Remote Control and put 2xAAA size batteries inside the compartment.

The diagram inside the Battery Compartment shows the correct way to install the batteries.

Using the Remote Control

To use the Remote Control, point it towards the front of the Digital Set Top Box. The Remote Control has a range of up to 7 metres from the Set Top Box at an angle of up to 60 degrees.

The Remote Control will not operate if its path is blocked.

Sunlight or very bright light will decrease the sensitivity of the Remote Control.

Connecting to a Television

Caution: Make sure to check the voltage specification of the wall outlet is the same rating with the receiver. To prevent the risk of electric shock, do not open the cover or the back of the receiver.

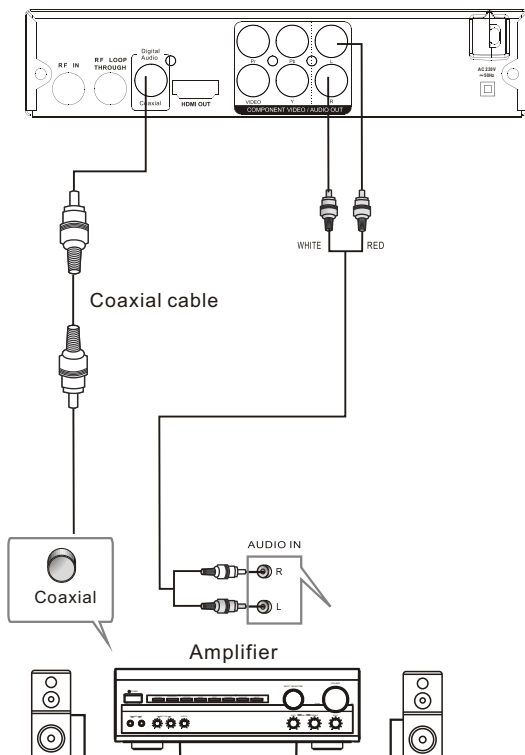

Note: When connecting the receiver to other equipment, e.g., TV, VCR and amplifier, make sure to refer to relevant user manual for instruction. Also, make sure you disconnect all the equipments from the mains supply before the connection.

For a basic connection from your Set Top Box to the television, use the Composite connection outlined below. For a higher quality connection, use the Component Video connection outlined with the Composite Audio Connection. For the highest quality connection use a direct HDMI connection.

Connecting to a DVD Recorder or VCR

Connecting to an Audio System

First Time Installation

After all connections have been made properly, switch on TV and make sure the receiver is connected to the Main Power. Press the Power button to switch receiver on. If you are using the receiver for the first time or have restored to Factory Default, the Installation Guide will appear on your TV screen.

- (1) Select [OSD Language] and Press the Navigate Buttons to select your desired language.
- (2) Select [Country] and Press the Navigate Buttons to select your desired country.
- (3) Select [Channel Search] and press RIGHT or OK key to begin Automatic channel search

[Blue]: Displays Subtitle in blue font.

[Green]: Displays Subtitle in green font.

USB Recording:

The most unique feature on your Set Top Box is its ability to record live TV. You can simply connect a USB storage device or Hard Disk Drive to your Set Top Box and press the record button on the remote control.

We recommend that you use a powered hard disk drive, as USB sticks only allow limited functionality. If you decide to use a USB stick please ensure it has over 2GB of recordable space.

With the Record Function you can record Live TV at anytime. Follow the below steps to activate this function.

1. Press the Record Button to activate Record function.
2. The recorded program can be played in 2X speed by pressing fast forward/ rewind Button for first time, in 4X speed for second time, in 8X speed for third time, in 16X speed for fourth time, in 32X speed for fifth time.
3. You can display information of the recorded program will be displayed by pressing the 'INFO' Button while in full-screen playback.
4. To exit the recorded program press the stop button.

Note:

- We cannot guarantee compatibility (operation and/or bus power) with all USB mass storage devices and assume no responsibility for any loss of data that may occur when connected to this unit.

- With large amounts of data, it may take longer for the system to read the contents of a USB device.

- Some USB devices may not be properly recognized.

- Even when they are in a supported format, some files may not play or display depending on the content.

Time shift

Make sure that a USB or Hard Disc Drive device is connected to the receiver in order to be able to use the time shift function.

We recommend that you use a powered Hard Disk Drive as USB Sticks will only allow limited functionality.

Please ensure that the USB Memory used has a memory capacity of above 2 GB.

With the Timeshift Function you can pause and continue Live TV at anytime you like without having to miss any action. Follow the below steps to activate this function.

1. Press the Pause Button to activate Timeshift and pause Live TV. You can press play at anytime to resume play.
2. You can fast forward the playback at anytime until returning to live TV, or press the stop button to exit timeshift mode.

Troubleshooting

Problem	Potential Reasons	What to do
No picture	Power isn't connected	Connect the power
	The power switch is not on	Switch on the power
Screen shows "No Signal"	DVB-T cable not connected	Plug in the DVB-T cable
	Incorrect setting	Conduct a factory reset
No sound from speaker	No or incorrect connection with audio cable	Connect the audio cable correctly
	Sound on mute	Turn off mute function
	Adjust the volume.	Volume is set to low
Only sound, no image on the screen	No or incorrect connection with AV cable	Make sure cables are connected correctly
	The program is a radio program	Press <TV/RADIO> key to shift into TV mode
Remote Control is not responding	The battery is exhausted	Change battery
	Remote Control is not facing or close enough to the Set Top Box	Adjust the position of the Remote Control and move closer to the unit
The image stopped suddenly or mosaic	The signal is too weak	Conduct a Factory Reset
USB not responding	USB is not connected properly or does not sufficient memory	Reconnect the USB or connect another USB

This symbol on the product or in the instructions means that your electrical and electronic equipment should be disposed at the end of life separately from your household waste. There are separate collection systems for recycling. For more information, please contact the local authority or your retailer where you purchased the product.

Warranty

Please keep your receipt as proof of purchase. This product is warranted for any defect in materials or workmanship for one year after the original date of purchase. This product is for normal domestic and office use only.

This warranty does not cover damage from misuse or neglect, accidental damage, vermin infestation, excessive voltages such as lightning or power surges or any alteration that affects the performance or reliability of the product.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

In the unlikely event that your product fails to work normally, please contact the Bush Warranty on **1800 509 394 (Australia)** or **0800 450 259 (New Zealand)** and have your receipt of purchase on hand.

This warranty is subject to the following provisions:

- It is only valid within the boundaries of the country of purchase.
- The product must be correctly assembled and operated in accordance with the instructions contained in this manual.
- The product must be used solely for domestic purposes.
- The warranty does not cover accidental damage, misuse, cabinet parts or consumable items.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexperienced repair.
- The manufacturer disclaims any liability for incidental or consequential damages.

This warranty is in addition to, and does not diminish, Your statutory or legal rights.
