Preparation

Your remote control

Preparation

- 1 Place the TV on a solid surface.**
For ventilation, leave at least 5 cm free all around the TV.
Do not place the TV on a carpet.
To prevent any unsafe situations, do not place any objects on top of the TV.
Avoid heat, direct sunlight and exposure to rain or water.
- 2 Insert the aerial plug firmly into the aerial socket**  **at the back of the TV.**

- 3 Insert the mains plug in the wall socket having a mains voltage of 220V-240V.**
To prevent damaging the mains (AC) cord which could cause a fire or electric shock, do not place the TV on the cord.
- 4 Remote control: Remove the cover of the battery compartment.**
Insert the 2 batteries supplied (Type R6-1.5V).

R6 / AA

The batteries supplied do not contain the heavy metals mercury and cadmium. Nevertheless in many countries exhausted batteries may not be disposed of with your household waste. Please check on how to dispose of exhausted batteries according to local regulations.

Note: this remote control functions with TVs which use the RC6 signalling standard.

- 5 Switch the TV on :** Press the power switch  **on the front of your TV.**
A green indicator on the front of the TV lights up and the screen comes on.
If the indicator is red, press the **- P+** key on the remote control.

*The green lamp blinks every time you press a key on the remote control. When you switch on your set **for the first time**, the menu **LANGUAGE** automatically appears on the screen. The explanation appears in different languages one at a time. Choose your own language and press the **OK** key on the remote control.*

Go on to page 4.

Installation

Select the INSTALLATION menu

Press and at the same time.

To use the menus

- 1 Use the cursor in the up/down, left/right directions to select a menu item.
- 2 Press the **OK** key to activate.
- 3 Use the **MENU** key to return or to switch the menu off.

Store TV channels

Select the menu language and country

First, select your language and country.

- 1 Select **Menu language** and press the **OK** key.
- 2 Select your language and press the **OK** key. Use the cursor up/down to scroll through the list and to bring up other languages which are not displayed on the screen at present.
- 3 Select **Country** and press the **OK** key.
- 4 Select the country where you are now located and press the **OK** key. Use the cursor up/down to scroll through the list and bring up other countries which are not displayed on the screen at present.

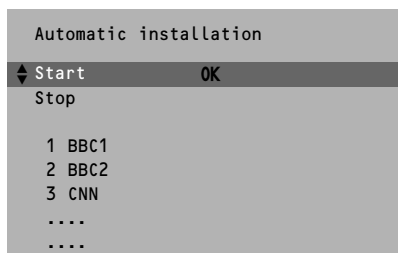

Select **Other** when none of the countries applies.

You can now search for and store the TV channels in two different ways: using **automatic installation** or **manual installation** (tuning-in channel by channel).

Select your choice and press the **OK** key.

Automatic installation

In the Automatic installation menu select **Start** and press the **OK** key to activate the searching. All TV channels are searched for and stored automatically.

If a cable system which broadcasts ACI (Automatic Channel Installation) or a TV channel transmitting a teletext page with the frequencies and programme names of all the TV channels which can be received, is detected, the search is stopped and a programme list appears.

The programme list is automatically filled with all the programme numbers and names of the TV channels transmitted.

*It is possible that the cable company or the TV channel displays a broadcast selection menu. Layout and items are defined by the cable company or the TV channel. Make your choice with the cursor and press the **OK** key.*

To exit from the menu press the **MENU** key on the remote control.

Go on to page 6.

Manual installation

Searching for and storing TV channels is done channel by channel. You must go through every step of the Manual installation menu.

Selection mode is only present and lights up if the country selected also offers the channel option (C-channels for aerial channels, S-channels for cable channels).

You can choose either channel or frequency mode.

- 1 Select the TV system
Select the country or part of the world from where you want to receive the TV channel.
If you are connected to a cable system, select your country or part of the world where you are now located.
- 2 Press the cursor down and enter the programme number with the digit keys.
- 3 Search for a TV channel
Press the cursor left/right.
The frequency or the channel number increases until a TV channel is found.

Direct selection of a TV channel

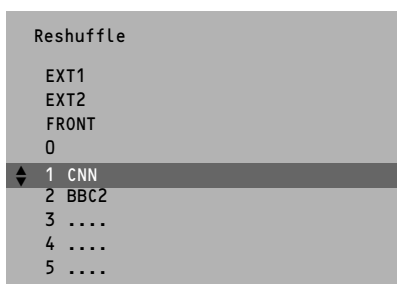

If you know the frequency, the C- or S-channel number, enter it directly with the digit keys 0 to 9.

Ask for a list from your cable company or dealer; alternatively consult the Table of frequencies on the inside backcover of this handbook.

- 4 Fine tune
In case of poor reception, you can improve the reception by adjusting the frequency with the cursor left/right.
- 5 To store your TV channel, select **Store** and press the **OK** key.

Repeat steps 1 to 5 to store another TV channel.

- 6 To exit from the menu press the **MENU** key on the remote control.

Give name

It is possible to change the name stored in the memory or to assign a name to a TV channel which has not yet been entered. A name with up to 5 letters or numbers can be given to the programme numbers 0 to 99. For example SUPER, BBC1,.... Between 99 and 0 you can also name any peripherals that are connected to a euroconnector.

- 1 Select **Give name** in the **INSTALLATION** menu and press the **OK** key.
- 2 Select the programme number.
- 3 Press the **OK** key.
- 4 Select the character with the cursor up/down.
- 5 Select the following position with the cursor right.
- 6 Select the following character.
- 7 Press the **OK** key when finished.
- 8 Press the **MENU** key to return to the **INSTALLATION** menu.

Space, numbers and other special characters are located between Z and A.

Reshuffle the programme list

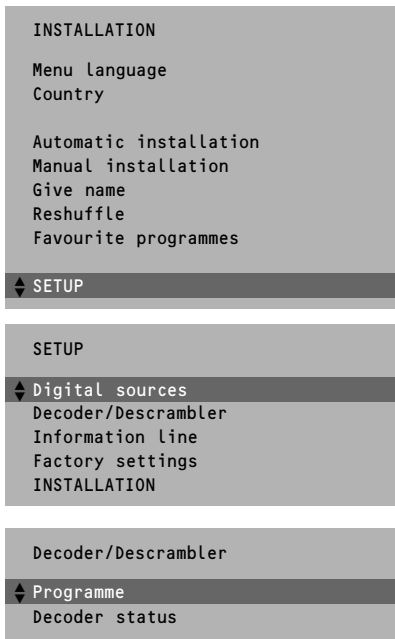

According to your preference you **can** change the order of the stored TV channels.

- 1 Select **Reshuffle** in the **INSTALLATION** menu and press the **OK** key.
- 2 Select the programme number you want to exchange.
- 3 Press the **OK** key.
- 4 Select the new number you want to exchange it with.
- 5 Press the **OK** key.
Repeat the operation until all TV channels are allocated as you like.
- 6 Press the **MENU** key to return to the **INSTALLATION** menu.

Select Favourite TV channels

After leaving the installation you can browse through the TV channels by pressing the - **P** + key. Only those TV channels which are in the favourite list will be displayed. Non-favourite TV channels can still be selected with the digit keys. By default all stored channels are added to the favourite list.

- 1 Select **Favourite programmes** in the **INSTALLATION** menu and press the **OK** key.
- 2 Select your favourite programme number.
- 3 Select **Yes** or **No** with the cursor left/right.
- 4 Repeat for every TV channel you want to make a favourite or a non-favourite TV channel.
- 5 Press the **MENU** key to return to the **INSTALLATION** menu.

Install TV Setup

The Setup menu allows you to adjust initial settings, i.e. those which are not related to the installation of the TV channels. The Setup menu contains items that control the settings of the TV's functions, features, services and peripherals you may have connected.

- 1 Use the cursor in the up/down, left/right directions to select the menu item.
- 2 Use the **OK** key to activate.
- 3 Use the **MENU** key to return or switch menu off.

Digital sources

See Connect Peripheral Equipment, p. 16 to connect your digital equipment, like a DVD, a digital satellite tuner or a similar digital device.

Define Decoder/Descrambler programme numbers

If a decoder or a descrambler is connected, see p. 15 you can define one or more programme numbers as decoder programme numbers.

Press the cursor left/right to select the input used to connect to your decoder **Off**, **EXT1** or **EXT2**.

Select **Off** if you do not want the selected programme number being activated as a decoder programme number.

Information line

Select **On** and after the selection of a TV programme or after pressing the **i+** key on the remote control, a TV channel which broadcasts teletext may transmit the name of the TV channel, the programme name or another message. This is displayed on screen next to information about sound and picture format.

When selected **Off**, only sound and picture format information is displayed after the selection of a TV channel or after pressing the **i+** key.

Factory settings

Select **Factory settings** and press the **OK** key to restore picture and sound settings, predefined in the factory.

Installation

Select **Installation** and press the **OK** key to return immediately to the **INSTALLATION** menu.

- 4 To exit from the menu press the **MENU** key repeatedly.

Operation

Use of the remote control

● **INSTANT** no function

● ◀◀ ▶▶ **Video recorder** see p. 18

📖 no function

MENU Main menu on/off see p. 10

📶 **Volume**
Press + or - to adjust the volume.

🔇 **Mute**
Temporarily interrupt the sound or restore it.

P **Programme selection**
To browse through the TV channels activated in the Favourite Programme menu.

i+ **Screen information**
Press for 5 seconds to activate/de-activate the extended or reduced display of TV channel and programme information on the screen.
Press briefly to display information about the selected TV channel and programme, the sound reception, picture settings and the remaining time set with the sleep timer.

Standby
The set is switched off and the red indicator lights up.
To switch the TV on again, press - P + or the digit keys.
Your TV consumes energy in the standby mode. Energy consumption contributes to air and water pollution. We advise to switch off your TV overnight instead of leaving it on standby. You save energy.

Incredible Surround
In **MONO** sound mode, this feature, when switched on, enables you to hear a spatial effect of sound.
In **STEREO** sound mode, when **Incredible Surround On** is selected, it seems as though the loudspeakers are spread further apart from one another

Teletext on/off see p. 12

Teletext functions see p. 13

Time display
The time, downloaded from the TV channel (with teletext) stored on programme number 1 or the lowest favourite programme number, is displayed on the screen.
This function is not available when continuous subtitles have been switched on.

0/9 Digit keys
To select a TV channel.
For a two digit programme number, enter the second digit within 2 seconds.
To switch immediately to a selected one digit TV channel, keep the digit key pressed a bit longer.
P+P Previous programme
The previously selected TV channel is displayed.
The -/- indication is only video recorder/DVD.

Select peripherals

Press this key repeatedly to select **EXT1**, **EXT2** or **FRONT**, according to where you connected the peripherals (p. 18).

Smart Keys

To select predefined picture and sound settings.

Smart Sound

Each time it is pressed, a different sound setting is selected, corresponding with specific factory setting of treble and bass.

Smart Picture

Each time it is pressed, a different picture setting is selected, corresponding with specific factory settings of Contrast, Colour, Sharpness and Dynamic Contrast.

Personal refers to the personal preference settings of picture and sound selected in the picture and sound menu.

Remark: the moment you are in a predefined smart sound or picture setting and you modify a setting in the picture or sound menu, all values of the menu will overwrite the previously made settings.

I-II Bilingual choice and sound mode selection

Press this key

- to switch from **Stereo** to **Mono** sound, in case of stereo transmission, or from **Nicam Stereo** to **Nicam available**, in case of digital transmission;
- to choose between language I (Dual I) or language II (Dual II), in case of bilingual transmission. The setting is separately stored for each TV channel.

Freeze

To activate/de-activate the frozen picture or to hold a teletext page.

12 for future use

Picture format

Press this key to switch to a wide screen format.

A black bar appears at the top and the bottom of the screen.

The TV has an automatic switching function via eurocable. Video recorders or programmes carrying special signals will automatically switch the TV to the correct screen format, if connected with a eurocable.

Active control

Active control is a pro-active and automatic system. The TV continuously measures and corrects all incoming signals in order to provide the best picture possible.

Press the  key to select the Active Control values Off or On.

Off Sharpness and Dynamic Contrast are controlled automatically

On Sharpness, Dynamic Contrast and Noise Reduction are controlled automatically.

Press the cursor in the up/down directions while the selected Active Control setting information is on top of the screen.

The Active Control menu appears.

The picture settings are being adapted continuously and automatically.

The menu items cannot be selected.

Press the cursor in the up/down directions again to switch off the menu.

Use of the menus

- 1 Press the **MENU** key to display/cancel the **MAIN MENU**.
- 2 Use the cursor in the up/down directions to select the **PICTURE**, **SOUND** or **FEATURES** menu or to select the **PROGRAMMES**.
- 3 Press the cursor right to activate the selected menu.
- 4 Use the cursor in the up/down, left/right directions to select the menu item.
- 5 Use the **OK** key to activate.
- 6 Press the **MENU** key repeatedly to return or to switch the menu off.

Picture menu

If an NTSC peripheral is connected to one of the euroconnectors, the option *Hue* also appears.

Tint

Select the colour temperature: **Normal**, **Warm** or **Cool**.

Dynamic Contrast

To make the contrast in the darker and the brighter picture areas more noticeable, select the **Med** setting.

In certain circumstances it may be preferred to select **Min**, **Max** or **Off**.

The modified adjustments for Contrast, Brightness, Colour, Sharpness, Tint and Dynamic Contrast are automatically stored for all TV channels. Select **Factory settings** in the Setup menu to restore the predefined factory settings, see p. 7.

Sound menu

The modified adjustments for Volume, Balance, Treble and Bass are automatically stored for all TV channels.

Select **Factory settings** in the Setup menu to restore the predefined factory settings, see p. 7.

Headphone volume

See Connect Peripheral Equipment, p. 17 for the connection of the headphone.

FEATURES	
Sleeptimer	Off
Child lock	Off
Subtitle	Off

Features menu

- 1 Press the **MENU** key to display/cancel the **MAIN MENU**.
- 2 Use the cursor in the up/down directions to select the **FEATURES** menu.
- 3 Press the cursor right to activate the selected menu.
- 4 Use the cursor in the up/down directions to select a menu item.
- 5 Use the cursor in the left/right directions to select the desired setting.

Sleeptimer

With the sleeptimer you can set a time period after which the TV should switch itself to standby.

The counter runs from **Off** up to **180 min**.

One minute before the TV is set to go to standby, the remaining seconds appear on screen. You can always switch off your set earlier or change the set time.

Child lock

If the child lock is on, the TV can only be switched on with the remote control. The **P** - and + keys on top of the TV cannot be used to select a TV channel. In this way you can prevent unauthorised use of your TV.

If the message **Child lock On** appears, the child lock must be switched off before you can use the **P** - and + keys on top of the TV to select a TV channel.

Subtitle

TV channels with teletext often transmit certain programmes with subtitling. See Teletext, Continuous Subtitles, p. 14 how to select the proper subtitle page from the teletext index.

Select **Subtitle On** or **Off**.

Press the **MENU** key to switch off the Features menu.

Programme list

- 1 Press the **MENU** key to display/cancel the **MAIN MENU**.
- 2 Select **PROGRAMMES** with the cursor up/down.
- 3 Press the cursor right to display an overview of all the TV channels installed.
- 4 Press the cursor up/down to run through the list and press **OK** to select the desired TV channel.
- 5 Press the **MENU** key to switch off the Programme list.

Teletext

Most TV channels broadcast information via teletext.

Each channel which broadcasts teletext transmits a page with information on how to use its teletext system. Look for the teletext page with the main index (usually p. 100).

Depending on the TV channel, teletext is transmitted in different systems.

The colours used in the options line correspond with the colour keys of your remote control.

About Easy Text

Easy Text considerably reduces the waiting time (on condition that the teletext broadcast of the particular TV channel is received for at least half a minute) by :

- a direct selection of previous and following pages which are in transmission and of the pages referred to in the options line
- a habit watcher list: frequently used pages are put automatically in a list of preferred pages, so that they are immediately available
- the precapturing of the page numbers referred to in the displayed page
- the precapturing of all the subpages.

Switch Teletext on and off

Press  to switch the teletext on or off.

The main index page appears on the screen together with two information lines at the top and one option line at the bottom of the screen.

Remark: if the displayed teletext characters on screen do not correspond with the characters used in your language, press the I-II key repeatedly to select Language group 1 or 2.

Select a Teletext page

With the digit keys

Enter the desired page number with the digit keys.

The page counter seeks the page or the page appears immediately when the page number has been stored in the memory.

A message appears when you have entered a non existent or incorrect page number. Page numbers beginning with 0 or 9 do not exist. Choose another number.

With the option line

Select with the colour keys, corresponding to the coloured options at the bottom of the screen, the desired subject.

Quickly run through the teletext pages

Press the cursor up/down or the - P + key to run through the previous or the following pages.

Select the previously selected txt page

Press the P/P key.

Select the index teletext page

Press the white colour key to display the main index (usually p.100).

Only for T.O.P teletext broadcasts :

T.O.P orders the pages in categories and adds other possibilities of enhancing ease of use.

Press **i+**. A T.O.P overview of the teletext subjects available is displayed. Not all TV channels broadcast T.O.P teletext. When the teletext system is not T.O.P teletext, a message appears at the top of the screen.

Select with the cursor up/down, left/right the desired subject and press the **OK** key.

Select subpages

When a selected teletext page consists of different subpages, one of the subpages appears on the screen.

The coloured number in the first information line refers to the displayed subpage.

The other subpages can be selected in 2 ways :

With the cursor left/right

The other subpage numbers appear in white as soon as the transmission has found them. They are stored in the memory so that they are available while the teletext page is on screen.

Select with the cursor left/right the previous or the following subpage.

With the **0** key

- Enter the subpage number yourself:

Press **0**. Enter the desired subpage with the digit keys : e.g. 3 for the third page of seven subpages.

The TV searches for the selected subpage.

- Automatically rotating subpages:

Press **0** again to cancel the entered digit key for the subpage.

Now the subpages rotate automatically.

Press **0** again to select the subpages with the cursor left/right again.

Special teletext functions

Hold

Press **⏪** to stop the automatically rotating of the subpages or to stop the page counter from seeking when you have entered a wrong page number or when the page is not available.

Enter another page number.

Enlarge

Press **⏪** repeatedly to display the upper part, the lower part and then to return to the normal page size. When the upper part is displayed, you can scroll the text, line by line using the cursor up/down.

Reveal

Press **?** to reveal/conceal the hidden information, such as solutions to riddles and puzzles.

Select Continuous Subtitles

TV channels with teletext often transmit programmes with subtitling. For each TV channel you can store a subtitle page which will be displayed continuously if the programme being broadcast is transmitted with subtitles.

Switch on teletext and select the proper subtitle page from the index.
Switch off teletext.
Now the subtitle page is stored for the selected TV channel.

Once subtitles have been stored and **Subtitle On** has been selected they will automatically be displayed on the selected TV channel if subtitles are in the transmission.

Select **Subtitle On** or **Off** in the Features menu, see p. 11.
The subtitle symbol  appears when **Subtitle On** is selected.

Remark: you are in teletext mode, so only teletext functions are available.

Keys on top of the TV

Should your remote control be lost or broken you can still change some of the basic picture settings with the keys on top of the TV.

Press the **M** key repeatedly to select **Volume, Brightness, Colour, Contrast, Treble, Bass.**

Press the **P** - or + keys to carry out the selected adjustment.

When the menu adjustment is not displayed, the **P**- or + keys enable you to select the TV channels, the  - or + keys to adjust the volume.

The selected adjustment automatically switches off when no action has been executed for 10 seconds.

Connect Peripheral Equipment

There is a wide range of audio and video equipment that can be connected to your TV. The following connection diagrams show you how to connect them.

Video recorder

Connect the aerial cables ①, ② and, to obtain the optimum picture quality, eurocable ③ as shown opposite.

If the eurocable ③ is not used the following steps are required:

Search for and store the test signal of the video recorder

- ① Unplug the aerial cable ① from the aerial socket of your video recorder.
- ② Switch on your TV and put the video recorder on the test signal. (See the handbook for your video recorder.)
- ③ Search for the test signal of your video recorder in the same way as you searched for and stored the TV signals. See Installation, Searching for and storing TV channels, Manual installation, p. 5.
- ④ Store the test signal under programme number 0 or between 90 and 99.
- ⑤ Replace the aerial cable in the aerial socket of your video recorder after you have stored the test signal.

Decoder and video recorder

Connect a eurocable ④ to your decoder and to the special euroconnector of your video recorder. See also the video recorder handbook.

See Define Decoder/Descrambler prog. numbers, p. 7.

You can also connect your decoder directly to **EXTERNAL 1** or **2** with a eurocable.

Video recorder and other peripherals (except Digital Sources)

- ① Connect the aerial cables ①, ② and ③ as shown opposite. Better picture quality can be obtained if you also connect eurocable ⑤ to **EXTERNAL 2** and a eurocable ④ to **EXTERNAL 1**.
- ② Look for the test signal of your peripheral in the same way as you do for a video recorder.

*When a video recorder is connected to **EXTERNAL 1** you can only record a programme from your TV.*

*Only when a video recorder is connected to **EXTERNAL 2** it is possible to record a programme from your TV as well as from other connected equipment. See Record with your video recorder, p. 20.*

Note: EXTERNAL 1 can handle CVBS and RGB, EXTERNAL 2 CVBS, YIC and RGB.

Camera & camcorder

- 1 Connect your camera or camcorder to sockets at the right side of your TV.
- 2 Connect the equipment to **VIDEO** ② and **AUDIO L** ③ for mono equipment.
Press the **I-II** key repeatedly to select the sound coming from one or both loudspeakers of your TV.
- 3 For stereo equipment also connect **AUDIO R** ③.

S-VHS quality with an S-VHS camcorder is obtained by connecting the S-VHS cables with the **S-VIDEO** input ① and **AUDIO** inputs ③.

Digital equipment (DVD, digital satellite tuner,...)

Connect your digital equipment with a eurocable ① to one of the euroconnectors (**EXT1** or **EXT2**), or with a cinch cable to the **VIDEO** input at the right side of the TV (see illustration above).

- 1 Press **Ⓞ** and **↕** at the same time.

- 2 Select **Digital sources** in the Setup menu of the **INSTALLATION** menu and select:
 - **None** if you have no digital source connected,
 - **EXT1** or **EXT2** if you have connected your equipment to a euroconnector,
 - **FRONT** in case you connected to the right side of the TV,
- 3 Press the **MENU** key to switch off all menus.

*Note: the low quality of some digital picture material may be the cause of digital image distortion. In this case select **Eco** under the **SMART PICTURE** key on the remote control as this setting is intended to improve distorted picture quality.*

Headphone

- 1 Insert the plug into the headphone socket  at the right side of the TV.
- 2 Press  on the remote control to switch off the internal loudspeakers of the TV.
*The headphone impedance must be between 8 and 4000 Ohm.
The headphone socket has a 3.5 mm jack.*

In the **SOUND** menu select **Headphone volume** to adjust the headphone volume. See p. 10.

Audio equipment / Amplifier

Connect the audio cables to the audio input of your audio equipment and to **AUDIO L** and **R** at the back of your TV.

You can listen to your TV sound via your audio equipment.

If you want to connect more equipment to your TV, consult your dealer.

To select connected equipment

Equipment connected with an aerial cable only :

Select the programme number under which you have stored the test signal with the digit keys.

Equipment connected to a euroconnector or to the right side of the TV

Press the  key repeatedly to select **EXT1**, **EXT2** or **FRONT**, according to where you connected your equipment at the back or the right side of TV.

Remark : Most equipment (decoder, video recorder, satellite receiver) carries out the switching itself.

If you want to change to TV channels?

Enter the programme number of the TV channel which you want to watch with the digit keys or press the  key repeatedly to select **TV**.

Audio and video equipment keys

Most of the audio and video equipment from our range of products can be operated with the remote control of your TV.

Video recorder

Keep the **VCR** key on the left side of the remote control pressed and simultaneously press:

-  for record,
-  for rewind,
-  for stop,
-  for play,
-  for fast forward,
-  for selecting 1- or 2-digit programme numbers from the video recorder,
-  for sequential programme selection from the video recorder tuner,
-  to select a programme number from your video recorder tuner,
-  to switch the video recorder to standby

These keys function with equipment which use the RC5 signalling standard.

Satellite receiver

Press the **OK** key simultaneously with the digit key 1.

Now you can operate your satellite receiver with the remote control of your TV.

Keep the **MODE** key on the left side of the remote control pressed and simultaneously press:

- ▢ to switch the **SAT** menu on or off
- /-- to select a one or two digit programme number from the satellite receiver.

These keys function with equipment which use the RC5 signalling standard.

DVD player

Press the **OK** simultaneously with the digit key 2.

Now you can operate your DVD player with the remote control of your TV.

Keep the **MODE** key on the left side of the remote control pressed and simultaneously press:

- ▢ to switch the DVD menu on or off
- ☰ to select a DVD title
- P/P to select a DVD chapter
- I-II to select your choice of audio language
- ◀◀ to search down
- stop
- ▶ play
- ▶▶ to search forward
- 0-9 to select a programme number from your DVD

●, ⏪, ⏩, ⏴, ⏵ have no function

Note: after replacing the batteries the default operational equipment is the satellite receiver.

These keys function with equipment which use the RC6 signalling standard.

Record with your video recorder

To record S-VHS quality, connect an S-VHS peripheral directly to the video recorder.

Record a TV programme

- 1 Select the programme number on your video recorder.
- 2 Set your video recorder to record.
See the handbook for your video recorder.

Switching programme numbers on your TV does not disturb recording !

Record a programme on your video recorder connected to EXTERNAL 2 from Audio/Video equipment connected to EXTERNAL 1 or to sockets on the right side of the TV

- 1 Switch on the equipment.
- 2 Select the right external on your video recorder.
- 3 Set your video recorder to record.
You record what you are watching on the screen.

Do not switch programme numbers or do not switch off your TV when you are recording !

Tips

Care of the screen

Clean the TV with a slightly damp soft cloth. Do not use abrasive solvent as it can damage the TV screen.

Poor Picture

Have you selected the correct TV system? Is your TV or house aerial located too close to loudspeakers, non-earthed audio equipment or neon lights, etc.?

Mountains or high buildings can cause double pictures or ghost images.

Sometimes you can improve the picture quality by changing the direction of the aerial.

Is the picture or teletext unrecognisable?

Check if you have entered the correct frequency. See Installation, p. 5.

Are brightness and contrast out of adjustment? Select Factory settings in the Setup menu, p. 7.

Sometimes poor picture quality is possible when having activated an S-VHS camera or camcorder connected to the right side of your TV and another peripheral is connected to **EXT1** or **EXT2** at the same time. In this case switch off one of the other peripherals.

No picture

Is the aerial connected properly? Are the plugs tightly connected in the aerial socket?

Is the aerial cable in good condition and does it have suitable plugs?

Are the connection facilities to a possible second TV in good condition? If in doubt, consult your dealer.

No sound

No sound on any channel? Check the volume isn't at minimum. Is the sound interrupted with the mute key ?

Remote control

If your TV no longer responds to the remote control, the batteries may be dead.

You can still use the **M** key and the **-/+** keys at the top of your TV.

Menu

Have you selected the wrong menu? Press the **MENU** key again to exit from the menu.

No solution

Switch your TV off and then on again once.

Never attempt to repair a defective TV yourself.

Check with your dealer or call a TV technician.

End of life directives

Philips is paying a lot of attention to produce environmentally-friendly in green focal areas. Your new TV contains materials which can be recycled and reused.

At the end of its life specialised companies can dismantle the discarded TV to concentrate the reusable materials and to minimise the amount of materials to be disposed of.

Please ensure you dispose of your old TV according to local regulations.

How to dispose of dead batteries?

The batteries supplied do not contain the heavy metals mercury and cadmium.

Nevertheless in many countries dead batteries may not be disposed of with your household waste. Please ensure you dispose of dead batteries according to local regulations.

Glossary

100 Hz

100 Hertz provides a superior solution to the problem of picture flicker which is particularly noticeable with larger screen sizes. In a conventional TV, the picture area is scanned 50 times a second (50 Hertz) – a frequency which is still detectable by the human eye in the form of a flickering picture. In 100 Hertz sets, the picture area is scanned at a rate of 100 times per second (100 Hertz). At this frequency, the eye cannot detect flicker, resulting in a clearer picture which is more relaxing to the eye.

Automatic Channel Installation (ACI)

Automatically installs all TV channels in the same order as offered by your cable company, provided of course that the data is transmitted. It also automatically includes programme number and programme name. With ACI, channel installation is fully automatic, simple and fast.

Child lock

Feature to prevent unauthorised use of your TV.

Easy Text

Teletext memory that automatically memorises Teletext pages and gives you instant access to them.

Euroconnector

A 21-pin connector system enabling you to simply connect various types of audio/video and computer equipment.

Menu

On-screen display of functions and facilities in a well-organised survey, which you can select using your remote control.

NTSC

The broadcasting system used in the USA, Japan and parts of South America and Southeast-Asia.

Smart Picture and Sound controls

Keys on the remote control to select predefined picture and sound settings.

Sleptimer

Function with which you can set a time period after which the TV should switch itself to standby.

Picture Freeze

TV mode which allows you to “freeze” a certain image in order to study a specific detail at ease, e.g. to make notes of certain programme information like phone numbers.

Teletext

See also Easy Text

WST: World Standard Teletext.

FLOF: Full Level one Features. System applied by the BBC, RVE.... that provides a fast access to the teletext pages.

TOP: Table of (Teletext) Pages. German system for an easy access to the teletext pages.

Tint

TV-function to modify the general colour balance between cool and warm and to adjust it according to your personal preference.
