3 connecting the speakers

1. Press down the terminal tab on the back of the speaker.

2. Insert the black wire into the black terminal (–) and the red wire into the red (+) terminal, and then release the tab.

3. Connect the connecting plugs to the back of the Home Cinema.
   • Make sure the colors of the speaker terminals match the colors of the connecting plugs.

Front Speaker (R)   Front Speaker (L)

Subwoofer

! ▪ Do not let children play with or near the speakers. They could get hurt if a speaker falls.

▪ When connecting the speaker wires to the speakers, make sure that the polarity (+/–) is correct.

▪ Keep the subwoofer speaker out of reach of children so as to prevent children from inserting their hands or alien substances into the duct (hole) of the subwoofer speaker.

▪ Do not hang the subwoofer on the wall through the duct (hole).

▪ If you place a speaker near your TV set, screen color may be distorted because of the magnetic field generated by the speaker. If this occurs, place the speaker away from your TV set.

4 connecting the video out to your tv

Choose one of the four methods for connecting to a TV.

METHOD3 (supplied) METHOD2 METHOD1

METHOD 1 : HDMI

Connect the HDMI cable from the HDMI OUT jack on the back of the DVD Home Cinema to the HDMI IN jack on your TV.

METHOD 2 : Component Video

If your television is equipped with Component Video inputs, connect a component video cable(not supplied) from the Component Video Output (Pr, Pb and Y) Connectors on the back of the main unit to the Component Video Input Connectors on your TV.

METHOD 3 : Composite Video

Connect the supplied video cable from the VIDEO OUT jack on the back of the main unit to the VIDEO IN jack on your TV.
✎ ▪ The resolution from the Component Output is 480i.

▪ If you use an HDMI cable to connect a Samsung TV to the DVD Player, you can operate the Home Theater using the TV's remote control. This is only available with SAMSUNG TVs that support Anynet+(HDMI-CEC).

▪ Please check the Anynet⁺ logo (If your TV has an Anynet⁺ logo, then it supports the Anynet+ function.)

---

5 connecting audio from external components

AUX1 : Connecting an External Component/MP3 player

Components such as an MP3 Player.
